

THE GLEICHEN CALL

VOLUME XXX NO 4 GLEICHEN, ALBERTA, WEDNESDAY APRIL 14, 1937 SUBSCRIPTION \$2.00 PER YEAR

BLACKFOOT M. D. COUNCILLORS IN REGULAR SESSION

The fourth meeting of the council of the Municipal District of Blackfoot for 1937 was held in the office. Councilors present were Deputy Reeve Umbrite and Bolinger, Wheatley and Rasmussen. In the absence of Reeve Thorsen Mr. Umbrite took the chair.

The secretary reported that Councilor Nelson had subscribed to his oath of office. At the time Mr. Nelson was still confined to the hospital in Banana. The agreement with Lars Rasmussen re-levating the C. P. R. of responsibility for the culvert removed and ditch filled at this location.

At 12:15 the meeting adjourned for lunch. The council then proceeded to gether with A. Larsen of Standard and E. S. Naylor of Chandler for the Home Hotel for dinner. Upon re-convening in the afternoon all reported they were surprised at the size, the general efficiency of the many departments of the institution, they observed working, and the number of inmates. All expressed their appreciation of the work carried on and the kindly and courteous treatment from Adjutant and Mrs. Suteland, their hosts.

Some eighteen persons from Municipal Districts 218 and 219 were present at the meeting. Among them were Mr. A. Larsen, reeve of Grasswae, and Mr. Walrod of Rockyford. Both gentlemen addressed the council requesting that the four miles of road north of Tiede's corner receive extra consideration, giving the many reasons why this four miles of road should, if at all possible, be brought up to a higher standard this coming season.

Councillor Wheatley advised they could count on his support in the request and stated he was of the opinion that Mr. Thorsen's attitude was the same as the proposed work was in turn for Division No. 6. Councillor Rasmussen expressed himself as being very necessary to take care of the traffic carried. Deputy Reeve Umbrite added his assurance.

The condition of the Strathmore-Gleichen Highway was then discussed and it was mutually agreed that some request be made to have this highway rebuilt. Later in the day a local road was prepared and shown to the Minister of Public Works. Copies were also supplied to the interested parties who agreed to do what they could to bring the matter to the front.

The council approved Councillor David Nelson's absence from council meetings during his illness.

A by-law was passed providing that the provisions of the local tax arrears consolidation act shall be in force in the municipality during this year. Three other by-laws were passed. One pertaining to the agricultural relief advances for \$5000; the second a feed and fodder by-law for \$3000; the third for tractor fuel and oil advances for \$4000.

It was decided to hold a special meeting on the 15th of April to deal with applications for assistance under the by-laws passed, also the complete estimates for municipal purposes, to levy for school purposes and to attend to any business needing attention of the council at that time.

Councillor Wheatley carried the following motion: Whereas the Trans-Canada road between Strathmore and Gleichen is of a very low standard and deterioration has left the road bed below the level of the adjoining fields and drifting soil has to a great extent filled the drainage channels with silt with the result that snow accumulates on the road to a great depth during the winter months and water stays on the road after the spring thaw and after rains. This road is kept open during the winter months with snow plows which pile the snow on the edges of the road which in turn melts and runs upon the road bed. Traffic cuts the road bed and the road becomes impassable. Therefore, be it resolved that this municipal council request the provincial minister of public works to place this stretch of road in his 1937 estimate for rebuilding

BANQUET AND DANCE MOST ENJOYABLE AFFAIR

In the neighborhood of 125 people sat down to the banquet given in honor of the Gleichen Gunners, by the townsmen last Friday evening in the Community hall. Sapper over Chairman Sutermeister called for community singing, followed by addresses by Lt.-Col. Lewis, Geo. H. Gooderham, tap dancing by Misses Jean Dufour and Maureen Pineau, songs by Miss Helen Kelly and Lars Dobson. Chairman Sutermeister also spoke briefly.

After the program was over the floor was cleared and several hours were spent in dancing to the strain of Art Brenner's snappy orchestra.

ENJOYABLE EVENING SPENT BY MEMBERS LADIES S.C. GROUP

A card party sponsored by the Meadowbrook Social Credit Ladies' Group was greatly enjoyed on Friday April 2nd, at Shamrock school. Thirty members and friends were in attendance.

Court whist was played and the first prize was won by Mrs. Bert Day and Mr. Claude Rouche, while the body prizes went to Mrs. Geo. Bell and Mr. Rouche.

A delicious supper was served by the hostesses Mrs. R. B. Hayes and Mrs. Orville Calkins, after which Miss Vera Hayes delighted in gathering with recitations entitled "All Around Wife" and "Lucky Jim".

Mr. Geo. Bell then spoke briefly regarding recent developments in our government.

THE WORLD OF WHEAT

By H. G. L. Strange, Director of "Crop Testing Plan."

A perfect wheat is badly needed by farmers in the rust areas of Western Canada.

The rust area comprises the whole of Manitoba, and as well Saskatchewan east of a vertical line running through Shellbrook, Saskatoon and Moose Jaw.

For many years the ablest plant breeders in the United States, Canada and in other countries have been endeavoring to produce a suitable rust-resistant wheat. Several varieties have now been licensed for use in Canada, and other varieties are still under test.

Thatcher is the most widely distributed rust-resistant variety at present. It is a few days earlier than Marquis, somewhat higher yielding, and is rust-resistant to a high degree. Thatcher is about the same mill and baking qualities as Marquis. It has well good strength of straw.

The defects of Thatcher are that the kernels are not of a good shape as the Marquis berry, and as well they have rather a dull color, so that the grain grades, on the average, about one-fifth of a grade less than Marquis.

Other licensed rust-resistant wheats are Renown (a product of the Dominion Research Station, Winnipeg), and Apex, (developed by the University of Saskatchewan).

Favoring factors have tended to raise price: Heavy consumptive demand for wheat in Continental Europe. Spain purchases Argentine wheat. Russia and half storm may lower yield and quality of Indian crops. Wet weather delays spring field work in Europe. Poland prohibits grain exports. First Argentine corn estimate 26 million bushels below 1936.

Following factors have tended to lower price: Bread prices raised in Argentina and Great Britain. Record South African corn crop. Indian wheat crop estimated at 375 million. Regular demand for Iraq and Kharon barley in Holland. Germany purchases Turkish wheat. Favorable crop prospects in U.S.

during the season of 1937. Also, that we request the federal government to make a special grant towards the cost of this proposed work in view of this road being part of the Trans Canada Highway.

TOWN COUNCILLORS DEBATE ON MANY SUBJECTS

The last meeting of the town councilors saw Mayor Purcell and Councilors McConnell, Menard, Thompson, Deshayes Michael and McDonald present.

Lt.-Col. Lewis waited on the council in connection with a flag staff for the town to be erected in order that the flag be flown on Coronation Day May 12th. He explained that it had been decided that a celebration would be held on May 12th in which various organizations would take part, and as there would be certain expenses attached to it he asked the council to consider contributing a share of this expense.

The mayor explained that he had taken the matter of the flag staff up with the public works committee and arrangements had been made to erect a flag staff of iron pipe. In connection with the financial assistance, it was felt that the financial condition of the town at present did not permit granting funds for this purpose but it was suggested that some sort of entertainment be arranged for which the town would contribute the use of the Community Hall, and the proceeds could be used for the Coronation celebration.

Mr. Glendinning of Strathmore, waited on the council in connection with the renting of the Community Hall for picture purposes, the arrangement to be a straight net of \$10 per week and a third of everything over \$60. This would include one show in the afternoon and two shows in the evening. A letter had also been received from Sharp's Circus setting out a proposition, in connection with the operation of the picture shows. Both matters were held in abeyance.

The secretary advised that several telephone calls had been received from Calgary in connection with the Brownary family and that transportation for their return to Gleichen had been requested. The secretary was instructed to write the chief department, Calgary and advise them that the council's final decision is that this family is not a responsibility of Gleichen and that a copy of the correspondence had been forwarded to A. H. Miller, of the department of relief and public welfare, Edmonton. At this point Mr. Brownary presented himself to the council and was turned over to the R.C.M.P. until such time as the matter was settled.

P. Deshayes was granted an exchange of lists and the secretary advised the council of the business tax collected since last meeting. The secretary was instructed to advise those still in arrears that unless their business tax arrears was paid within 30 days proceedings would be instituted.

It was decided to hold a tax sale on the first of June.

A letter had been received from the National Institute for the Blind asking for a donation. The council ordered a donation of \$10. A charge of \$2 per lot for 25 foot lots will be made for lots rented from town for garden purposes. Lots of greater size will be charged for on this basis. The renter will have to pay for them in advance at the time of making application. No new lots are to be broken up for garden purposes. The public works department committee were empowered to secure the shed they need for the town.

A by-law pursuant to the Social Credit tax act was introduced and passed. Also passed was a by-law to impose a business tax.

Many other matters pertaining to the welfare of the town were discussed and settled before adjourning.

ALBERTA RED CROSS SOON TO MAKE APPEAL FOR FUNDS

This year the Alberta Division, Canadian Red Cross Society, has decided to hold their annual campaign for funds from the 1st to the 15th of May. It has been pointed out that as the 12th day of May is the date of the Coronation of His Majesty, King George the Sixth, and also as this day is the anniversary of Florence Nightingale's birthday, it would seem appropriate to invite the people of Alberta to help the Red Cross.

TWO MEETINGS HELD RECENTLY BY FARM WOMEN

The U. F. W. A. held a regular meeting at the home of Mrs. L. Koeffed with around twelve members present. The exhibit of handicraft was postponed until April 29th meeting, which will be held at the home of Mrs. J. C. Buckley. A dainty lunch was served.

Miss Gordwin entertained the U. F. W. A. with eleven members present. Mrs. R. Burne read a splendid paper. The next meeting will be held on Thursday April 15th, at the home of Mrs. R. P. Umbrite.

BLACKFEET TO SING AT CORONATION CEREMONIES HERE

At a meeting of the Coronation committee held Wednesday evening reports were received from the organizations outlining the part each would take in the program. The tentative arrangement is that a parade will be held to the skating rink when the following will take part in the program:

Special religious services by local ministers.
Gleichen 22nd Battery.
Gleichen Ranger Troop.
Gleichen Girl Guides.
Gleichen Brownies.
Boy Scouts.
Cubs.
Gleichen school children.
Old Sun Indian School.
Cluny Indian School.
Blackfoot Indian tribe.

It is the intention that each of these organizations will put on a special number during the program. An outstanding item will be the singing of God Save the King in the Blackfoot language and led by the Chum school band.

As soon as all particulars have been completed the program will be printed and circulated at the service while it will also appear in the papers sometime before the 12th of May. A further meeting of the committee will be held shortly to complete the program.

The Legion boys are also giving strong support to the program and the town will erect a new 45 foot flag pole at the cenotaph.

For years, May 12th has been the British Red Cross Day, and in the Old Country the proceeds from dances, entertainments, movies, and the Red Rose Tag Day, are contributed by the people. So it is the desire to inaugurate the same idea in Alberta. In view of the Coronation being held this year it is thought this a good time to start the new policy so that all may be given an opportunity to celebrate this great occasion by showing the spirit of self sacrifice in helping an organization who are trying to help the sick and the suffering.

During the past winter the Red Cross assisted 60 districts in the drought area and distributed bedding supplies, such as blankets, sheeting, pillow casing, comforters, ticking and towelling to 4,400 families representing 22,300 persons. Much of the funds to do this work had to come from the Ontario, Quebec and British Columbia divisions of the Red Cross which had to make an appeal for Alberta Red Cross.

GLEICHEN UNITED CHURCH

Rev. J. N. Wilkinson, Minister.
Mrs. H. Birch, choir leader.
Miss Jean Farquharson, pianist.
11 a.m. Church School.
7:30 p.m. Devine Worship. Subject: "The Sermon on the Mount"

This sermon is the first of a series based on our Lord's teaching as summarized in the 5th, 6th and 7th chapters of St. Matthew's Gospel. The Sermon on the Mount contains the rule of life for everyone who belongs to Christ's kingdom, and reveals the only way to a blessed life.

A special invitation to join in these studies is given to those who have read these chapters and think they understand them sufficiently.

So long as a thing is endurable the people will not demand a change. The worse it gets, the more likely it is to get better.

VICKS VAPOR-NOL

Highways And The Tourist

It requires very little study of figures just published in the National Revenue Review, issued under the authority of the Minister of National Revenue at Ottawa, to convince one in an impressive way of the growing importance of tourist traffic between the United States and Canada.

A little further analysis, however, conveys more than an impression that Eastern Canada and particularly Ontario and Quebec, and in the west British Columbia, are deriving the major portion of the benefits which must accrue from intercommunication in this form and that the prairie provinces are almost left high and dry, for which, of course, there must be reasons.

Without delving too deeply into statistics a glance at a few figures is illuminating, as to the actual facts.

With the intention of visiting the neighboring country to the south for periods up to 90 days, occupants of 30,000 more Canadian automobiles drove into the United States in 1936 than in the previous year. On the other hand 470,000 more cars from the United States entered Canada last year than in 1935, a total gain for the combined flow of traffic in both directions of half a million cars in the 12 month period.

In the east, of course, some of this traffic represents little more than daily commuting or week end visiting between neighboring cities on either side of the international boundary under 48 hour permits, but even after this type of traffic is eliminated there remains an enormous increase in genuine tourist traffic under 60 day touring permits. For instance, through the three busiest ports in the Dominion—Windsor combined with Walkerville, Port Erie and Niagara Falls, the increase in the number of cars entering Canada under 60 day tourist permits was 126,321.

When these figures are plotted against those representing the flow of tourist traffic between the two countries through ports of entry in the prairie provinces a magnifying glass is almost necessary to detect the latter.

To illustrate, the increase in the number of automobiles crossing the boundary through the prairie ports in both directions was only 4,201 as compared with the preceding year and the total flow of tourist traffic north and south through the six principal prairie ports was 42,589 automobiles in 1936 with 22,340 Canadian cars going into the United States and 20,249 American automobiles travelling northward. In other words the total movement in both directions through all prairie ports last year was approximately the same as the average increase in tourist traffic in one direction through only one of the three busiest ports in the east. And the comparison refers only to tourist traffic in the east under a 60 day permit. Comparison of figures between traffic through British Columbia ports and through the prairie ports is relative with those of the east to a lesser degree.

In addition to the insignificance of the tourist traffic through prairie ports compared with the rest of the country it is also worthy of note that more Canadian cars are travelling south through prairie ports than American cars of tourists visiting in Canada and that this trend was greater in 1936 than the previous year whereas the situation is reversed in the east. As long as the east is more populous than the west, contains great centres of population in comparatively close proximity to one another on either side of the international boundary, and as long as greater wealth is concentrated in the east than in the west, greater travel on the north and south highways in the east than on those through the prairie ports is to be expected.

But even after making due allowance for these considerations it would appear that the prairie provinces are not making the most of their opportunities and are not attracting as many American tourists to the country as they should. Undoubtedly the principal reason is the condition of the highways in the prairie provinces.

During depression years the cost of improving and maintaining highways in the prairie provinces through a sparsely settled country has been more than the governments could bear. There have been, and still are, many complaints, and as a result residents of the western States prefer to travel on their own highways and there is a tendency for western Canadians to ride southward where the highways are more smooth and pleasant.

Until this condition of affairs is remedied the disparity between the flow of north and southbound traffic across the boundary through prairie ports is likely to become more accentuated year by year and when the value of American tourist traffic to Eastern Canada is reckoned in dollars and cents the wisdom of continuance of a cheapskate policy in the prairie provinces any longer than is absolutely imperative—if it is imperative—may well be doubted.

Detects Diseases Of Heart

Electrical Device Records Vibrations Of Sound and Motion

A device—they call it a cardiograph—which makes love throbs like drums in your heart, besides recording any murmurs of that organ, has been invented by G. Hewlett Davis, Detroit radio engineer and sound expert. The instrument, bearing resemblance to a fancy radio set, was demonstrated before the Society of Designing Engineers.

The machine, combining electric, radio, and motion pictures, all in one, is used for measuring sound and motion and diagnosing ailments of vital organs.

A small delicate crystal, so sensitive it would break into a thousand pieces if placed, even over so gently, on a table, is the main cog of the contraption on which Davis holds basic patents. Through this crystal and connecting amplifying mechanisms, the slightest vibrations of sound or motion are recorded.

The difference in heart beats of a normal man and a man suffering from "mitral stenosis" was demonstrated to the engineers, the machine giving forth varying rhythms similar to beats of a tom-tom, while an automatic pencil drew a graph of the vibrations.

Shows Many Changes

Events of Last 35 Years Affect Coronation Program

King George VI's coronation program shows many changes from that of his father, King George V, in 1911. Radio will enable His Majesty to broadcast a coronation message to his people throughout the Empire.

The Great War, resulting in the creation of the great leagues of ex-servicemen, brings another change, and at the end of June the King will review a representative gathering of these war veterans.

In 1911 Crystal Palace was the scene of a Festival of Empire and the gathering place of 100,000 school-children. Today the Crystal Palace is a ruin, destroyed by fire.

King George V, visited Dublin following the coronation. The new King will go to Belfast instead. For King George V, the day before the coronation was a Day of Intercession. This has been omitted this time.

In 1911 the King and Queen made a "Royal Progress" through London. This year, instead, the coronation procession route itself has been lengthened to allow as many people as possible to see the majestic pageant.

Historic Chairs On Display

Have Been Donated To Bytown Museum At Ottawa

Many chairs used by great men in Canadian history have been donated by descendants to the Bytown Museum at Ottawa. One in which sat Simon Fraser, discoverer of the Fraser River, is on display. Another of the same black wood hewn by the Galteneau district dates back to 1827 and was made by Philip Burpee, first cabinet maker in Bytown. The only concession to comfort in these chairs is the curve of the back.

The collection includes a chair constructed by an Indian guide of Edward VII. for his use while he was in Canada in 1860 as the Prince of Wales.

Colonel By's favorite chair has a place of honor. It is of black wood with gold-plated design, faded gold figured satin upholstery and castors on the carved feet. A massive chair standing about six feet high, used by successive mayors of Ottawa from 1876 to 1903 shows its years of use in the worn black leather upholstery, faded paint work and chipped appearance of the intricate carving.

Northland Tragedy

Remains of Two Children Found In Athabasca District

Grim northland tragedy that mysteriously claimed lives of two tiny brothers almost five years ago, was believed solved this week with discovery of bones of two children, found near Rock Island lake, 60 miles north of Athabasca.

On May 19, 1932, two brothers, eight and six years old, sons of Nick Tansik, homesteader near Rock Island lake, wandered from their home. For more than two weeks, an intensive search was conducted in vain.

Sam Daren, settler in the Rock Island lake area, has discovered the remains of two children lying side by side at the foot of a spruce tree, seven miles from their home. They are believed to be those of the Tansik children.

Germany's machinery industry is booming. 2196

SPEAKING OF BIG BEN—
"THE FLAVOUR IS BETTER
AND THE PLUG LASTS
LONGER!"

BIG BEN

THE PERFECT
Chewing Tobacco

SELECTED RECIPES

PINEAPPLE ICE BOX CAKE

1/2 cup butter
2 egg yolks
1 tablespoon cream or evaporated milk
1 cup drained crushed pineapple
1/2 cup pineapple juice
2 egg whites
25 Christie's Graham Wafers, crumbled
1 cup sugar

Cream butter and sugar. Beat egg yolks with cream and stir over hot water until thick and smooth. Then add to butter and sugar mixture. Cool. Add crushed pineapple and juice and fold in stiffly beaten egg whites. Line a shallow loaf pan with wax paper and put a layer of graham cracker crumbs in bottom. Cover this part 1/2 of the pineapple mixture. Cover with crumbs and more pineapple, continue until all is used. Cover pan with waxed paper, fasten down with rubber band, and place in refrigerator. Turn upside down on serving dish and serve with whipped cream or whipped evaporated milk. Six portions. Fifteen minutes.

CARAMEL PUDDING

Temperature: 375 degrees F.
Time: 45 minutes

2 tablespoons shortening
1/2 cup Crown Brand corn syrup
1/2 cup bread flour
1/2 cup Benson's corn starch
1/2 teaspoon baking powder
1/2 teaspoon salt
1 egg

Cream the shortening; add Crown Brand corn syrup and beat well. Add unbeaten egg and beat vigorously for two or three minutes. Sift together Benson's corn starch, baking powder and salt; add to creamed mixture alternately with the milk. Put in the bottom of a greased baking dish. Cover with caramel sauce and bake in a moderate oven. As the baking takes, the cake will rise to the top and the caramel sauce will go to the bottom. Serve hot.

CARAMEL SAUCE

1 1/2 cups sour cream
1/2 cup brown sugar
3 tablespoons Benson's corn starch

Put all ingredients in a bowl and beat vigorously with a wooden spoon.

Seeking Strange Creature

Expedition Going to Spanish Morocco on Unusual Quest

An expedition is on its way to capture Asso at the foot of the Grand Atlas mountains on the edge of Spanish Morocco.

Beetle-browed, head and face apellike, fan-shaped ears, a queer guttural bark like a dog, a craving for roots and raw meat and a habit of squatting on the ground simian fashion, are some of Asso's characteristics.

And that's why scientists and anthropologists the world over want a look at Asso. They hope he may furnish the famous missing link in the chain of man's descent.

The strange, half-ape, half-man creature was discovered by Marcel Huet, French explorer. It has a powerful frame like that of a man, but it never goes near the villagers. Permission has been obtained from Moroccan authorities to capture the creature by force if necessary. In the expedition is Louis Langford, an Englishman.

Reserved For War Veterans

Limited Number of Seats For Those Attending Coronation

Reservation of 300 seats, \$6 for the covered ones and \$4 uncovered, has been made for Canadian war veterans at the Coronation through the British Empire Service League on application of the Canadian Legion.

"They may be obtained by applying not later than April 29 to the British Empire Service League headquarters in London or to the Canadian High Commissioner, Canada House, London. Money must accompany the applications. If covered seats are gone, uncovered ones will be allotted and the extra \$2 returned.

Reflecting On History

If The Camera Had Been Known In The Days Of King Alfred

"This photograph," cries the caption, "will be historic." We are accustomed to the phrase. How pleasant, we reflect, our history books would be if the camera had been known since Alfred's day.

Consider the pictures: Danes routed at Eglinton; the Dragon banner of the Wessex Kings waving at Senlac; John and the Barons on the "eyot at Runnymede"; Henry the Fifth, his cloak about him, riding through London streets on his return from Agincourt; Henry the Eighth at tennis; perhaps a first performance at the Globe on Bankside.

Then imagine those: Queen Elizabeth, the Earl of Leicester and guests at Kenilworth; the Five Members (reading from L. to R.); the Cabal in conference.

The camera, used in time, might have solved some of the permanent guesses of the historian. Did Canute command the waves? What did Raleigh do with his cloak? "Memorable" photographs indeed—in the word that "1666 and All That" has made us chary of using. —London Morning Post.

Nine inches of rain fell in 35 minutes at Asama, India, probably a world's record in rainstorms.

Spelling Match

Shows University Graduates To Be Shockingly Poor Spellers

In an age when proper diction and clear enunciation of the English language are submerged in a flood of coined words and colloquialisms, a revival of the old-fashioned spelling seems anomalous. A series of spelling contests are now being aired over the radio where, we always believed, spelling of a word really mattered very little if it was clearly and correctly pronounced.

The speaking vocabulary of the average American is estimated to be between three and four hundred words, most of them two and three syllable construction. Simple words like "believe," "zeize" and "occurred" are a problem for most of us. Confronted with such stumbling blocks as "phthisis," "aasfoetida," "pseudonym" and "ptilinum," we would be inclined to doubt the existence of any such word in the American language. What confuses us is the broadcasting of the fact that the majority of Americans, holding university and college degrees, supposedly intelligent and well-read, are shockingly poor spellers.

So it seems to us that the radio spelling bee is an attempt to revive an art that has long ago outlived its usefulness.—San Francisco Journal.

Along Canada's Mining Highway

Quebec supplied most important news during the past week. The Quebec Manitou property, better known as the Golden Manitou, encountered high-grade gold-zinc ore in diamond drilling. It has been known that the contact that appears to be responsible for the large orebodies on the Lamague continued easterly through the Golden Manitou and Fleming properties. The finding of the wide vein containing the above-mentioned high-grade sulphides points the way to a major mining development.

Ontario's Martin Bird property, located a few miles to the west of the Quebec boundary, supplied other important news. The finding of high-grade ore on the first level was added importantly to an already impressive large tonnage mine development.

The proving of a new oil field by the Plains Petroleum Company by the bringing in of a producing well on the Company's 6000 acre tract located thirty miles east of Lethbridge and eighty miles south-east of Turner Valley is a development of probable far reaching importance.

Shipped To Australia

Giant Frogs From New Orleans Being Fattened For Epicures

At Orange, New South Wales, half a dozen giant frogs about 7,000 miles from their native New Orleans, are being fattened for Australian epicures. The frogs were part of a shipment of 36 sent from the United States to farms at Orange and in Burwood. Only 15 of the shipment survived, the others having died of seasickness in the hospital of the ship that took them across the Pacific. The frogs were kept in a canvas pool in the ship's hospital, given ice when the weather was hot, and were fed on minced steak.

Award For Safety

The National Safety League of Canada announced Transport Minister C. D. Howe had offered a trophy to be awarded for the finest safety record in connection with railway, waterways and air transportation in the Dominion.

HOW TO OVERCOME ITCHING PILES

If you are annoyed with itching piles or rectal soreness, do not neglect the name or risk the risk of an operation. Itching, soreness or painful passage of stool, is nature's warning and protest that the rectum is being abused. For this purpose get a box of Anusol, a powerful itching and burning remedy. This formula, which is used internally, follows the rectum and soothes and aids in healing the sore, tender spots. Anusol is a powerful remedy and is highly recommended. It is easy to use. It acts on the lining of the rectum to relieve an operation when a simple remedy, which is so pleasant to use may be had, is such a reasonable cost.

United States Navy

Plan to Maintain a Fleet of Fifteen Modern Battleships

High United States naval officials said that the navy hopes to maintain a fleet of 15 modern battleships by building a new craft to replace each old ship as it reaches the 20-year age limit.

The intention is to lay down one or two keels each year for several years in the future. This replacement program will be in addition to the construction of two other battleships, the Washington and the North Carolina, for which contracts will be let in June.

Navy officers explained that the replacements program is timed so that work can be started on a bigger and better ship two or three years before each old vessel now in the fleet attains the obsolescence age prescribed in the Washington and London treaties. It requires from two to three years to build a battleship.

Admiral William D. Leahy, chief of naval operations, informed the House of Representatives sub-committee on appropriations that he expects to request funds for at least two of the proposed new battleships next year.

The "Washington" and "North Carolina," to cost \$60,175,000 each, will replace the "Arkansas," which becomes obsolete next year and the "Texas" or "New York," which reach the 20-year age limit in 1940.

The Philippines will shortly have 1,000 postal money order offices, one for each municipality.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cuts, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

Artificial wreaths always
on hand. Weather does not
affect these flowers in any
way

on the brake in response to a signal.
Five times as many Canadians
are injured while playing basketball as
while playing football.

FROM THE FILES OF GLEICHEN CALL TWENTY YEARS AGO

The Patriotic play and dance Fri-
day night realized \$947.75 (nin-
e hundred and forty seven dollars and
seventy-five cents.)

Mr. Kidney has returned from Van-
couver. He carried on stage at Blank
head for eight years. With his ability
we bespeak for the firm of Mathew
& Kidney a good and ever-growing
business in Gleichen.

C. L. Farrow, wife and son return-
ed last week from Long Beach, Cal.,
where they have been for the past
three months.

Dave Miller left last week for the
Peace River where he will take a
homestead.

Mrs. J. A. McDonald and family
left last week for Ontario.

On Saturday, March 31st; the mar-
riage took place in Gleichen of Miss
Betty Monie, of Calgary, and Mr.
Henry Dankworth of Standard. Rev.
John White officiated.

David Burr of Greenham, Alta.
arrived in town last week with his
family. He will manage the J. A.
Kansay farm in the Arrowwood dis-
trict.

W. R. McKie has just received an
other carload of Pords.

Master David McBean has recover-
ed from his recent illness. Mrs. Mc-
Bean and family have moved out of
their ranch.

The Toronto Star says that Lieut.
George H. Gooderham has left for

Town & District

Bob Taylor and Frank Woods left
last week for Brooks, where they will
take positions with the C.P.R. staff.

Elmer Bolinger returned home last
week after spending some months in
the southern states. Judging by the
broad smile on his face he must
have thoroughly enjoyed himself.

Practically all Gleichen hockey play-
ers and most of the fans took in
one or more of the Allen cup games
played in Calgary. A number at-
tended every game.

William C. Morrison, father of
Mrs. Fred Jones, passed away in
Calgary April 2nd after a long ill-
ness. Mr. Morrison was born in
Moniaive, Scotland and came to Cal-
gary 27 years ago. He was well-
known as a blacksmith in Calgary,
also Carleton Place and Chum. The funeral
was held Monday from Loyden's and
was largely attended. Crescent
Masonic Lodge, of which he was a
member conducted the service at the
grave. Interment was made in Burn-
land cemetery.

Rinehart Sele, an inmate of Even-
tide Home died last week at the age
of 63 years. Mr. Sele was born in
Steener, Norway and came to Al-
berta thirty years ago, making his
home at Talbert, Alta., where he en-
gaged in farming. He had been liv-
ing at the Home for the past three
years. Funeral services were con-
ducted by Adjt. Sutherland. Inter-
ment taking place in Eventide cem-
etery.

Would you like to live long and be
healthy and happy? Of course you
would. Then make a garden the play-
thing of your youth or advancing
years. Gardening is among the nobel-
est and most delightful of all pursuits.
You will find it will remove boredom,
give you a good appetite, open your
eyes to new and startling beauties and
enchantments of nature; add years to
your life and give you a new vital-
ity and outlook on life in general.
It is a hobby or pastime that is not
expensive; in fact, for a surprisingly
small outlay the most generous and
delightful satisfaction of mind and
heart is assured. This cannot be said
of some of the other popular hobbies
or forms of recreation, for most of
them make rather serious inroads
into the purse and do not always give
us the joy and satisfaction we ex-
pect. As a nerve tonic a garden is in-
comparable. Peace and gladness are
radiated from flowers and plants and
even vegetables. The finest elements
of human character can be developed
in a garden; it is a natural sanctuary.
Not only will a garden help to soften
your own asperities but it will trans-
mit its gentle and happy influence
into your household and community.
There is a camaraderie among per-
sons who love a garden and garden-
ing, a broad and infectious spirit of
unselfishness, a desire to share the
beauties of flowers and plants.

overseas with a draft from the Can-
adian Officers Training Corps to
take a commission in the Imperial
Army. He refused offers to unite
with Canadian artillery units in order
to get overseas as soon as possible.

Some claim Cluny elevators have
done more business than Gleichen the
past season.

The provincial police had about 20
of our respectable townsmen and
farmers in police court, when J. L.
Laycock assessed them from \$7.50 to
\$15 for not having new license num-
bers or their lights burning on their
autos. Those who had old numbers
were soaked \$15 as it was thought
they knew better and had had ample
time to procure them, while new own-
ers paid half price.

A. H. Goodwin was in town last
week and was endeavoring to in-
dicate more of our farmers to ship their
cream to a creamery in Calgary.

Mrs. H. B. Shaw was down from
Calgary last week and made quite a
number of purchases in Gleichen. The
home town shows more enticing prices
than Calgary.

Mrs. J. J. Marshall and family
have left to reside in Calgary.

Monday's sleigh brought \$9.00 and
hogs \$14.75 in Calgary.

Serding is now general and will be
in full swing by the end of the week.

H. Lockyear came up from River-
hurst, Sask and spent a short time
visiting relatives here.

Have your auto lights trimmed and
burning and license numbers tacked
on.

Frank Hill returned from a buying
trip through Saskatchewan with a
car load of fine looking young regis-
tered Clyde horses.

Miss Mabel Keeford who recently
underwent a serious operation in
Rochester is now recovering.

On Sunday C. R. Cousins arrived
from Powell, Wyo.
George Watson was a visitor from
Cochrane Friday.
